

# ABOUT

## **FIABCI, the International Real Estate Federation, is a business networking organization for all real estate professionals worldwide.**

FIABCI stands for "**Fédération Internationale des Administrateurs de Biens Conseils Immobiliers**", in English it means: International Association of Real Estate Professionals. FIABCI was founded in 1951 by five countries and Austria was one of them! The founding idea was to protect and foster private real estate ownership in opposing the communist system.

FIABCI is an international and independent association of real estate professionals. Our goal as an international and national networking organisation is increasing the professional effectiveness of real estate professionals. We are market-oriented and create positive images of the future in the real estate industry that serve society.

We invite those interested in the real estate industry to experience and discuss the special features of other real estate cultures outside of Austria together with the FIABCI community and to exchange best practices for Austria.

In 2026, 75 years after its foundation, FIABCI Austria will host the **76th FIABCI World Real Estate Congress in Vienna**. Last time that happened was 36 years ago in 1989.

From June 8-12th we will spoil our guests with everything Vienna has to offer including a High-Calibre Conference with top speakers and unforgettable evening events! Over the course of five days, the 76th FIABCI World Real Estate Congress provides an exceptional platform to connect with peers worldwide, exchange ideas, and explore new business opportunities. It will bring together top professionals from the global real estate sector, including developers, investors, brokers, architects, urban planners and policymakers.
